

A full day of racing including a mini tournament for one Key Stage 2 class

Our Training & Competition Day is a unique opportunity for up to 30 children in Years 5 or 6 to be trained in different forms of cycle racing and prepare for open competition.

The one-day event is delivered by Pro-Ride founder and former Olympic cyclist, Phil Bateman and consists of an introduction to the various forms of racing with specific training in road, track and off-road techniques, followed by a series of races where riders gain points towards a mini-competition and selection for an inter-school competition at a later date.

"We thoroughly enjoyed the event. The children love the engagement and the competitiveness. It's wonderful to see so many children taking part in a valuable experience."
