

INTER-SCHOOL COMPETITIONS

Fully organised inter-school
competition for up to 10 schools

Area-wide Cycling Championship at the ready!

A full day of competition, planned, arranged and delivered on an agreed school site.

We successfully trialled a competition in 2019 with 8 schools in North Yorkshire. Each used the Training & Competition Day to prepare and qualify their teams for the Inter-School event which was held at a school in Catterick. Over the last 5 years we have also been running a training program and competition for 8 schools in Leeds, with an inter-school final held in late June. This has proved popular and has enabled the schools to add cycling to their sports curriculum. We are happy to work with individual schools as well as sports partnerships, clusters or trusts wanting to introduce a cycling element to their competitive school's sport provision. We are also happy to help organise and run area-wide qualifying and inter-school events. We can also provide training for schools planning on entering teams into the Sainsbury's School Games festivals and regional qualifying events.

"We thoroughly enjoyed the event. The children love the engagement and the competitiveness. It's wonderful to see so many children taking part in an event that is so different and that they enjoy so much. Such a valuable experience."

**Neil Saunders, Deputy Head,
The Michael Syddall Primary
School, Catterick, North Yorkshire**
